

## Get the most of our 6U VPX scalable platforms

to reach the highest performance  
needed in HPEC systems!

Rely on Interface Concept proven 6U VPX product line to build your High-Performance system.

- ✓ High-end technologies
- ✓ Software-compatible
- ✓ Cost-effective solutions

- ✓ A single source
- ✓ Time-to-market
- ✓ Ruggedized solutions

Interface Concept provides the whole building blocks including FPGA boards, Ethernet switches and processing boards for your 6U VPX platforms.

- ✓ Xilinx Virtex® and UltraScale® FPGAs
- ✓ Intel Xeon® D-15xx processors
- ✓ ARM processors
- ✓ 1, 10, 40 Gigabit Ethernet
- ✓ AMD GPGPU processors

- ✓ Switch management (Switchware)
- ✓ Example designs
- ✓ FPGA IP cores
- ✓ Secure functions
